Chapter 1  ... Development of the Computer

1.1 The Original Digital Computers

The First Electronic Computer.  

2. Ceruzzi, Paul E.  
Reckoners: The Prehistory of the Digital Computer, 
from Relays to the Stored Program Concept, 1935-1945.  

3. Ceruzzi, Paul E.  
A History of Modern Computing.  
-- Covers the transition to the microprocessor and personal computer.

4. Goldstine, Herman H.  
The Computer from Pascal to von Neumann.  

5. Ifrah, Georges.  
The Universal History of Computing: From the 
Abacus to the Quantum Computer.  

6. Lavington, Simon S.  
Early British Computers.  
7. Lukoff, Herman.
   *From Dits To Bits: A Personal History of the Electronic Computer.*
8. Lundstrom, David E.
   *A Few Good Men from Univac*
   *A History of Computing in the Twentieth Century.*
10. Mollenhoff, Clark R.
    *Atanasoff: Forgotten Father of the Computer.*
11. Moreau, R.
    *The Computer Comes of Age: The People, the Hardware, and the Software.*
    *Perspectives on the Computer Revolution.*
13. Randell, Brian.
14. Redmond, Kent C. and Thomas M. Smith
    *Project Whirlwind: The History of a Pioneer Computer.*
15. Ritchie, David.
    *The Computer Pioneers: The Making of the Modern Computer.*
16. Shurkin, Joel.
17. Stern, Nancy.
    *From Eniac to Univac: An Appraisal of the Eckert-Mauchly Computers.*
18. Wildes, Karl L. and Nilo A. Lindgren. 
   A Century of Electrical Engineering and Computer 
19. Wilkes, Maurice. 
20. Williams, Michael R. 
   A History of Computing Technology. 

1.2 IBM
   and Emerson W. Pugh. 
   IBM's Early Computers. 
22. Belden, Thomas and Marva Belden. 
   The Lengthening Shadow: The Life of 
   Thomas J. Watson. 
23. Pugh, Emerson W. 
   Memories That Shaped An Industry: Decisions 
   Leading to IBM System/360. 
24. Pugh, Emerson W., Lyle R. Johnson and 
   John H. Palmer. 
   IBM's 360 and Early 370 Systems. 
25. Pugh, Emerson W. 
   Building IBM, Shaping an Industry and Its 
   Technology. 
   Think: A Biography of the Watsons and IBM. 
27. Watson, Thomas J. Jr. 
   A Business and Its Beliefs: The Ideas That Helped 
   Build IBM. 
   Father Son & Co.: My Life at IBM and Beyond. 
1.3 Technology
   Revolution in Miniature: The History and Impact of
   Semiconductor Electronics.
   Cambridge, Mass.: Cambridge University Press, 1982
   (2nd Edition).
30. Gilder, George.
   Microcosm: The Quantum Revolution in Economics and
   Technology.
   -- "A prescient look inside the expanding universe
   of economic, social and technological
   possibilities within the world of the silicon
   chip."
31. Morris, P.R.
32. Reid, T.R.
   The Chip: How Two Americans Invented the Microchip
   and Launched a Revolution.
33. Riordan, Michael and Lillian Hoddeson.
   Crystal Fire: The Birth of the Information Age.

1.4 Software
34. Rosen, Saul (Editor).
   Programming Systems and Languages.
35. Sammet, Jean E.
   Programming Languages: History and Fundamentals.
36. Wexelblat, Richard L. (Editor).
   History of Programming Languages.
Chapters 2, 4 & 11 ... Personal Computing, Transition to Microcomputers & Competitive Computers.

37. Bardini, Thierry.

   *A Description of the LINC.*
   In “Computers in Biomedical Research Corporation.”
   Editors: Ralph W. Stacy and Bruce D. Waxman.

39. Evans, Christopher.
   -- The “Micro” in the title refers to the microprocessor. The book does not contain any history of the microcomputer. The author died in 1979 prior to completion of the book, which was finished by Tom Stonier.

40. Freiberger, Paul and Michael Swaine.
   *Fire in the Valley: The Making of the Personal Computer.*
   -- A second edition was published by McGraw-Hill in 2000 that has been updated, with expanded coverage and numerous photographs.

41. Goldberg, Adele (Editor).
   *A History of Personal Workstations.*

42. Kemeny, John G.
   *Man and the Computer.*
   -- Has a chapter describing Dartmouth Time Sharing System.

43. McCarthy, John.
   *Time-Sharing Computer Systems.*
   In: “Management and the Computer of the Future”.
   Greenberger, Martin (Editor).
Bibliography/6  A History of the Personal Computer

44. Osborne, Adam.
    An Introduction to Microcomputers. 3 Vols.
45. Veit, Stan.

Chapters 3 & 8  ... Microprocessors
46. Byman, Jeremy.
    Andrew Grove and the Intel Corporation.
47. Jackson, Tim.
48. Kaye, Glynnis Thompson (Editor).
    A Revolution in Progress: A History of Intel to Date.
49. Malone, Michael S.
    The Microprocessor: A Biography.
50. Noyce, Robert N. and Marcian E. Hoff.
    A History of Microprocessor Development at Intel.
51. YU, Albert.

Chapters 5 & 10  ... Apple Computer
52. Amelio, Gil and William L. Simon.
    On the Firing Line: My 500 Days at Apple.
53. Butcher, Lee.
    Accidental Millionaire: The Rise and Fall of Steve Jobs at Apple Computer.
54. Carlton, Jim.  
   *Apple: The Inside Story.*  
55. Deutschman, Alan.  
   *The Second Coming of Steve Jobs.*  
56. Garr, Doug.  
   *Woz: The Prodigal Son of Silicon Valley.*  
57. Gassée, Jean-Louis.  
   *The Third Apple: Personal Computers and the Cultural Revolution.*  
58. Greenberg, Keith Elliot.  
   *Steven Jobs & Stephen Wozniak: Creating the Apple Computer.*  
   -- A juvenile book for young readers.
59. Kawasaki, Guy.  
   *The Macintosh Way.*  
60. Kendall, Martha E.  
   *Steve Wozniak: Inventor of the Apple Computer.*  
62. LeVitus, Bob and Michael Fraase.  
   *Guide to the Macintosh Underground: Mac Culture From the Inside.*  
63. Levy, Steven.  
   *Insanely Great: The Life and Times of Macintosh, the Computer That Changed Everything.*  
64. Linzmayer, Owen W.  
   *The Mac Bathroom Reader.*  
65. Linzmayer, Owen W.
   *Apple Confidential: The Real Story of Apple Computer, Inc.*
66. Malone, Michael S.
   *Defying Gravity: The Making of Newton.*
   -- A photo-journalistic depiction of the Newton development.
68. Moritz, Michael.
   *The Little Kingdom: The Private Story of Apple Computer.*
69. Price, Rob.
   *So Far: The First Ten Years of a Vision.*
70. Rose, Frank.
   *West of Eden: The End of Innocence at Apple Computer.*
71. Rozakis, Laurie.
   *Steven Jobs: Computer Genius.*
   -- A juvenile book for young readers.
72. Schmucker, Kurt J.
   *The Complete Book of LISA.*
73. Sculley, John with John A. Byrne.
   *Odyssey: Pepsi to Apple ... A Journey of Adventure, Ideas and the Future.*
74. Thygeson, Gordon.
   *Apple T-Shirts: A Yearbook of History at Apple Computer.*
75. Various.  
Maclopedia: The ultimate reference on everything Macintosh!  

76. Weyhrich, Steven.  
Apple II History.  

77. Young, Jeffrey S.  
Steve Jobs: The Journey is the Reward.  

**Chapters 6 & 12 ... Microsoft**

78. Andrews, Paul.  
How the Web Was Won: Microsoft from Windows to the Web: The Inside Story of How Bill Gates and His Band of Internet Idealists Transformed a Software Empire.  

79. Auletta, Ken.  
World War 3.0: Microsoft and its Enemies.  

80. Bick, Julie.  
All I really Need to Know in Business I Learned at Microsoft.  
-- A personal guide to business management.

81. Boyd, Aaron.  
Smart Money: The Story of Bill Gates.  
-- A juvenile book for young readers.

82. Brinkley, Joel and Steve Lohr.  
U.S. V. Microsoft: The Inside Story of the Landmark Case.  

84. Dearlove, Des.  

85. Dickinson, Joan D.  
    *Bill Gates: Billionaire Computer Genius.*  
    -- A juvenile book for young readers.

86. Edstrom, Jennifer and Marlin Eller.  

87. Ferry, Steven.  
    *The Building of Microsoft.*  
    Mankato, MN.: Smart Apple Media, 1999.

88. Foreman, Michael.  
    *Bill Gates, Software Billionaire.*  

89. Gates, Bill with Nathan Myhrvold and Peter Rinearson.  
    *The Road Ahead.*  

90. Gates, Bill with Collins Hemingway.  
    *Business @ The Speed of Thought: Using a Digital Nervous System.*  

91. Gatlin, Jonathan,  
    *Bill Gates: The Path to the Future.*  

92. Heilemann, John.  
    *Pride Before the Fall: The Trials of Bill Gates and the End of the Microsoft Era.*  

93. Ichbiah, Daniel and Susan L. Knepper.  
    *The Making of Microsoft.*  
94. Lewis, Ted G.
   *Microsoft Rising ... and other tales of Silicon Valley.*
   -- Mainly a reprint of IEEE Computer periodical articles, with minimal Microsoft content.

95. Liebowitz, Stan J. and Stephen E. Margolis.
   *Winners, Losers and Microsoft: Competition and Antitrust in High Technology.*
   Oakland, Calif.: The Independent Institute, 1999.

96. Lowe, Janet.
   *Bill Gates Speaks: Insight from the World’s Greatest Entrepreneur.*

98. Marshall, David.
   *Bill Gates and Microsoft.*

99. Microsoft Staff.
   *Inside Out! Microsoft – In our own words.*

100. Moody, Fred.
    *I Sing the Body Electronic: A Year with Microsoft on the Multimedia Frontier.*

101. Rivlin, Gary.
    *The Plot to Get Bill Gates: An Irreverent Investigation of the World’s Richest Man...and the People Who Hate Him.*

102. Rohm, Wendy Goldman.
    *The Microsoft File: The Secret Case Against Bill Gates.*
103. Stross, Randall E.
Reading, Mass.: Addison-Wesley, 1996.

104. Tsang, Cheryl D.
Microsoft First Generation: The Success Secrets of the Visionaries Who Launched a Technological Empire.

105. Wallace, James and Jim Erickson.
Hard Drive: Bill Gates and the Making of the Microsoft Empire.

106. Wallace, James.
Overdrive: Bill Gates and the Race to Control Cyberspace.

107. Woog, Adam.
Bill Gates.

Show-Stopper! The Breakneck Race to Create Windows NT and the Next Generation at Microsoft.

Chapters 7, 13 & 15 ... Other Software

109. Birnes, William J. (Editor).
Personal Computer Programming Encyclopedia.

110. Brooks, Frederick P.
The Mythical Man-Month: Essays on Software Engineering.
Reading, Mass.: Addison-Wesley, 1975.

The NeWS Book: An Introduction to the Network/extensible Window System.
-- Chapter 3 has a history of Windows development with an emphasis on the relationship to Sun workstations.
Microcomputer Applications.  

113. Hoch, Detlev J., Cyriac R. Roeding, Gert Purkert,  
Sandro K. Linder with Ralph Müller.  
Secrets of Software Success: Management Insights  
from 100 Software Firms Around the World.  

114. Hsu, Jeffrey.  
Microcomputer Programming Languages.  

Back to BASIC: The History, Competition, and  
Future of the Language.  

116. Raymond, Eric S.  
The Cathedral & the Bazaar: Musings on Linux and  
Open Source by an Accidental Revolutionary.  
--A history of hackers and the development of  
open-source software.

117. Wayner, Peter.  
Free For All: How Linux and the Free Software  
Movement Undercut the High-Tech Titans.  

**Chapter 9 ... The IBM Corporation**

118. Carroll, Paul.  
Big Blues: The Unmaking of IBM.  

Blue Magic: The People, Power and Politics Behind  
The IBM Personal Computer.  

120. Dell, Deborah A. and F. Gerry Purdy.  
ThinkPad: A Different Shade of Blue: Building A  
Successful IBM Brand.  
Indianapolis: Sams (A Division of Macmillan  
121. Ferguson, Charles H. and Charles R. Morris.  
   *Computer Wars: The Fall of IBM and the Future of Global Technology.*  

122. Garr, Doug.  
   *IBM Redux: Lou Gerstner & the Business Turnaround of the Decade.*  

123. Heller, Robert.  
   *The Fate of IBM.*  

124. Slater, Robert.  
   *Saving Big Blue: Leadership Lessons & Turnaround Tactics of IBM’s Lou Gerstner.*  

**Chapter 17 ... Peripherals**

125. Durbeck, Robert C. and Sol Sherr.  
   *Output Hardcopy Devices.*  

**Chapter 18 ... Magazines and Newsletters**

126. Shirinian, George.  
   *Microcomputing Periodicals: An Annotated Directory.*  
   Toronto, Canada: George Shirinian, 1985.

**Chapter 19 ... Other Companies, Organizations & People**

   *Sinclair and the 'Sunrise' Technology.*  

   *DIGERATI: Encounters with the Cyber Elite.*  

129. Bronson, Po.  
   *The Nudist on the Late Shift: and Other True Tales of Silicon Valley.*  
130. Brown, Kenneth A.  
*Inventors at Work: Interviews with 16 Notable American Inventors.*  
-- Includes interviews with Marcian E. "Ted" Hoff and Steve Wozniak

131. Bunnell, David with Adam Brate.  
*Making the CISCO Connection: The Story Behind the Real Internet Superpower.*  

132. Caddes, Carolyn.  
*Portraits of Success: Impressions of Silicon Valley Pioneers.*  

133. Carlston, Douglas G.  
*Software People: An Insider's Look at the Personal Computer Software Industry.*  

134. Clark, Jim with Owen Edwards.  

*Zap! The Rise and Fall of Atari.*  

136. Cringely, Robert X.  
*Accidental Empires: How the Boys of Silicon Valley Make Their Millions, Battle Foreign Competition, and Still Can’t Get a Date.*  

137. Cusumano, Michael A. and David B. Yoffie.  
*Competing On Internet Time: Lessons from Netscape and Its Battle with Microsoft.*  

*The Sinclair Story.*  

139. Datapro Research.  
*Who’s Who in Microcomputing 1984-85.*  
140. Dell, Michael with Catherine Fredman.  
    *Direct from Dell: Strategies That Revolutionized an Industry.*  
141. Editors (Senior): George Sutton, James R. Talbot and Alan Chai.  
142. Ehrbar, Al.  
    *The Verbatim Story: The First Twenty-Five Years.*  
143. Hall, Mark and John Barry.  
    *Sunburst: The Ascent of Sun Microsystems.*  
144. Hiltzik, Michael.  
    *Dealers of Lightning: XEROX PARC and the Dawn of the Computer.*  
145. Jager, Rama D. and Rafael Ortiz.  
    *In the Company of Giants: Candid Conversations with the Visionaries of the Digital World.*  
146. James, Geoffrey.  
    *Success Secrets from Silicon Valley: How to make your teams more effective.*  
    Formerly Titled:  
    *Business Wisdom of the Electronic Elite*  
    -- A business management guide.
    *How it All Began: Hewlett-Packard’s Loveland Facility.*  
148. Kaplan, David A.  
    *The Silicon Boys: and Their Valley of Dreams.*  
149. Kaplan, Jerry.  
    *Startup: A Silicon Valley Adventure.*  
150. Kenney, Charles C.
   *Riding The Runaway Horse: The Rise and Decline of Wang.*
   -- Has a chapter on “The Personal Computer Revolution.”

151. Kenney, Martin and John Seely Brown (Editors).
   *Understanding Silicon Valley: The Anatomy of an Entrepreneurial Region.*

152. Lammers, Susan.
   *Programmers at Work: Interviews with 19 Programmers Who Shaped the Computer Industry.*

153. Laver, Ross.

154. Lee, J.A.N.
   *Computer Pioneers.*

156. Lewis, Michael.
   *The New New Thing: A Silicon Valley Story.*
   -- A biographical story of Jim Clark (Silicon Graphics and Netscape)

157. Levy, Steven.
   *Hackers: Heroes of the Computer Revolution.*

158. Littman, Jonathan.
   *Once Upon a Time in ComputerLand: The Amazing, Billion Dollar Tale of Bill Millard’s ComputerLand Empire.*
159. Mahon, Thomas.  
   *Charged Bodies: People Power and Paradox in Silicon Valley.*  

160. Malone, Michael S.  
   *The Big Score: The Billion-Dollar Story of Silicon Valley.*  

161. Osborne, Adam and John Dvorak.  
   *Hypergrowth: The Rise and Fall of Osborne Computer Corporation.*  

162. Packard, David.  
   *The HP Way: How Bill Hewlett and I Built Our Company.*  

163. Pearson, Jamie Parker (Editor).  
   *Digital at Work: Snapshots from the first thirty-five years.*  

164. Peterson, W.E. Pete.  
   *AlmostPerfect: How a Bunch of Regular Guys Built WordPerfect Corporation.*  

165. Quittner, Joshua and Michelle Slatalla.  
   *Speeding the Net: The Inside Story of Netscape and How it Challenged Microsoft.*  

166. Read, Stuart.  
   *The Oracle Edge: How Oracle Corporation's Take-No-Prisoners Strategy Has Created an $8 Billion Software Powerhouse.*  
   -- Mainly a business management text.

167. Rifkin, Glenn and George Harrar.  
   *The Ultimate Entrepreneur: The Story of Ken Olsen and Digital Equipment Corporation.*  

168. Sigismund, Charles G.  
   *Champions of Silicon Valley: Visionary Thinking from Today's Technology Pioneers.*  
169. Slater, Robert.  
   *Portraits in Silicon.*  

171. Southwick, Karen.  
   -- A business management book about the high-tech industry.

172. Southwick, Karen.  
   *High Noon: The Inside Story of Scott McNealy and the Rise of Sun Microsystems.*  

173. Spector, Robert.  
   *amazon.com: Get Big Fast.*  

174. Spencer, Donald D.  

175. Stross, Randall E.  
   *Steve Jobs & The NeXT Big Thing.*  

176. Stross, Randall E.  
   *eBoys: The First Inside Account of Venture Capitalists at Work.*  

177. Swisher, Kara.  
   *aol.com: How Steve Case Beat Bill Gates, Nailed the Netheads, and Made Millions in the War for the Web.*  

178. Texas Instruments.  
   *50 Years of Innovation: The History of Texas Instruments -- A Story of people and their ideas.*  
   Dallas, Texas: Texas Instruments, 1980.  
   -- A company publication.
179. Thomas, David.  
Knights of the New Technology: The Inside Story of Canada's Computer Elite.  
Toronto, Canada: Key Porter Books, 1983.

180. Tomczyk, Michael S.  
The Home Computer Wars: An Insider's Account of Commodore and Jack Tramiel.  

181. Voyer, Roger and Patti Ryan.  
The New Innovators: How Canadians Are Shaping the Knowledge Based Economy.  

182. Wilson, Mike.  
The Difference Between God and Larry Ellison: Inside Oracle Corporation.  

183. Young, Jeffrey.  

184. Young, Robert and Wendy Rohm.  

Other ... Bits and Bytes

General
185. Ahl, David H. (Editor).  
The Best of Creative Computing: Volumes 1 and 2.  
-- Vol. 1 consists of material from the first six issues.

186. Ahl, David H. and Carl T. Helmers, Jr. (Editors).  
The Best of Byte: Volume 1.  
-- Includes material from the first twelve issues.

Periodicals

This section is a historical reference source of periodical articles. The articles provide additional detailed information on personal computer developments. The product articles are generally an initial review of the product shortly after its introduction.

Chapter 1 ... Development of the Computer.

239. Randell, Brian.  
"The Origins of Computer Programming."  
*IEEE Annals of the History of Computing*  
(Vol. 16, No.4, 1994), pp. 6-14.

240. Reid-Green, Keith S.  
"A Short History of Computing."  
*Byte* (July 1978), pp. 84-94.

241. Ridenour, Louis N.  
"Computer Memories."  
*Scientific American* (Vol. 192, No.6, June 1955)  
-- An overview of computer memory technology in the mid 1950’s.

242. Stern, Nancy.  
"Who Invented the First Electronic Digital Computer?"  

Chapters 2, 4 & 11 ... Personal Computing, Transition to Microcomputers & Competitive Computers.

Commodore

"The Commodore 8032 Business System."  

244. Fylstra, Dan.  

245. Perry, Tekla S. and Paul Wallich.  
"Design case history: the Commodore 64."  
246. Williams, Gregg.
   "The Commodore VIC 20 Microcomputer: A Low-Cost, High-Performance Consumer Computer."

Compaq
247. Dahmke, Mark.
   "The Compaq Computer: A portable and affordable alternative to the IBM Personal Computer."
   BYTE (January 1983), pp. 30-36.

Epson
248. Ramsey, David.
   "Epson's HX-20 and Texas Instruments' CC-40."
249. Williams, Gregg.
   "The Epson HX-20: The First Byte-sized Computer."
   BYTE (April 1982), pp. 104-106.
250. Williams, Greg.
   "The Epson QX-10/Valdocs System."
   BYTE (September 1982), pp. 54-57.

Graphics Software
251. Bissell, Don.
   "The Father of Computer Graphics: Today’s graphics systems owe their existence to an innovative graduate school project called Sketchpad."
   Byte (June 1990), pp. 380-381.
252. Editor.
   "The CAD Revolution: A 20-Year Saga."
   Compressed Air Magazine (October/November 1993), pp. 40-44.
253. Sutherland, Ivan E.
254. Sutherland, Ivan E.
   "Computer Graphics."
Heathkit

255. BYTE Staff.  
"The New Heathkit Computer Line."  

256. Dahmke, Mark.  
"The Heath H-89 Computer."  

257. Poduska, Paul R.  
"Building the Heath H8 Computer."  
BYTE (March 1979), pp. 12-13 & 124-140.

Hewlett-Packard

258. Archer, Rowland.  
"The HP-75 Portable Computer."  
BYTE (September 1983), pp. 178-186.

259. Morgan, Christopher P. (Editor-in-Chief).  
"Hewlett-Packard’s New Personal Computer: The HP-85."

*Byte* (November 1982), pp. 386-387.

436. Levy, Steven.  
"Of Mice and Men: The Mouse is but a small part of Doug Engelbart’s larger quest."  
*Popular Computing* (May 1984), pp. 70, 75-78.
   "The evolution of printers and displays."

438. Mendelson, Edward.
   "Microsoft Does a Wheelie: With a wheel between its buttons, the IntelliMouse goes where no other mouse has gone before."

439. Morgan, Chris.
   "A Look at Shugart's New Fixed Disk Drive."
   *BYTE* (June 1978), pp. 174-176.

440. Nulty, Peter.
   "Big Memories for Little Computers."
   *Fortune* (February 8, 1982), pp. 50-56.
   -- Describes development of hard disk drives by Seagate and Shugart.

441. Pelczarski, Mark.
   "Microsoft SoftCard."

442. Peters, Chris.
   "The Microsoft Mouse."

443. Schnatmeier, Vanessa.
   "A Modern Mouse Story."

444. Scientific American.
   "The Solid-state Century: the past present and future of the transistor."
   *Scientific American* (Special issue, January 1998).
   -- Includes articles on integrated circuit and microprocessor technology.

445. Whang, Min-Hur and Joe Kua.
   "Join the EISA Evolution: The EISA bus is breaking up that old "Gang of Nine"." 
446. Wieselman, Irving L. and Erwin Tomash.
Survey of Computer Output Printing."
Annals of the History of Computing,

Chapter 18 ... Magazines and Newsletters

447. Anderson, John L.
"Dave Tells Ahl: The History of Creative
Computing."

448. The Staff of inCider/A+.
"100 issues of inCider: A Look Back."

Chapter 19 ... Other Organizations, Companies & People

449. Davidson, Clive.
"The Man who made Computers Personal."
New Scientist (June 19, 1993), pp. 32-35.
-- A biographical article on Alan Kay.

450. Fraker, Susan.
"How DEC Got Decked."
-- Describes DEC bureaucratic and marketing
problems with its early personal computers.

451. Grover, Mary Beth.
"The Seagate Saga."

452. Halfhill, Tom R.
BYTE (August 1994), page 252.

453. Jacob, Rahul.
"The Resurrection of Michael Dell."
Fortune (September 18, 1995), pp. 117-128.

454. Kirkpatrick, David.
"Over the Horizon with Paul Allen."
Fortune (July 11, 1994), pp. 68-75.
455. Kraar, Louis.  
“Acer’s Edge: PCs To Go.”  
*Fortune* (October 30, 1995), pp. 186-204.

456. Lesser, Hartley.  
“Exec Avant-Garde: The Dynamic Zone.”  

457. Petre, Peter D.  
“Mass-Marketing the Computer.”  

458. Petre, Peter.  
“The Man Who Keeps the Bloom on Lotus: Mitch Kapor, a child of the Sixties, has nurtured Lotus Development Corp into the world’s largest independent software company.”  
*Fortune* (June 10, 1985), pp. 136-146.

459. Ramo, Joshua Cooper.  
“How AOL Lost the Battles but Won the War.”  

460. Ramo, Joshua Cooper.  
“Andrew S. Grove: A Survivor’s Tale.”  
-- This was a special “Man of the Year” issue featuring Andrew Grove.

461. Schlender, Brent.  
“The Adventures of Scott McNealy: Javaman Pow!”  
*Fortune* (October 13, 1997), pp. 70-78.

462. Serwer, Andy.  
“Michael Dell Rocks.”  

463. Tazelaar, Jane Morrill (Editor).  
"BYTE, 15th. anniversary SUMMIT: 63 of the world’s Most Influential People in Personal Computing Predict the Future, Analyze the Present."  
*BYTE* (September 1990), pp. 218-366.  
-- Provides a short biographical background of the participants.

464. Uston, Ken.  
“Behind The Scenes At Brøderbund: A Family Affair.”  
*Creative Computing* (September 1984), pp. 157-162.
465. Uttal, Bro.  
"Xerox Xooms Toward the Office of the Future."  

466. Uttal, Bro.  
"The Man Who Markets Silicon Valley."  
Fortune (December 13, 1982), pp. 133-144.  
-- Describes success of Regis McKenna and his company.

467. Uttal, Bro.  
"Sudden Shake-up in Home Computers."  
Fortune (July 11, 1983), pp. 105-106.

468. Uttal, Bro.  
"The Lab That Ran away From Xerox."  
-- Describes Xerox’s failure to market the results of research at its Palo Alto Research Center (PARC).

469. Weiss, Eric A.  
"The Computer Museum."  

470. Whitmore, Sam.  
"Electronic Arts."  
Cider (May 1984), pp. 35-37.

471. Wolfe, Tom.  
"The Tinkerings of Robert Noyce: How the sun rose on the Silicon Valley."  
-- An informative biographical article on Robert Noyce

472. Wright, Robert.  
"The Man Who Invented the Web: Tim Berners-Lee started a revolution, but it didn’t go exactly as planned."  
-- describes development of the World Wide Web

473. Yuln, Matt.  
"Exec Electronic Arts: Software Construction Company."  
Softalk (August 1984), pp. 36-40.
Chapter 20 ... Miscellaneous Items

474. Ahl, David H. (Editor, In-Chief)
   “Tenth Anniversary Issue of Creative Computing.”
   Creative Computing (November 1984), Vol. 10,
   No. 11.

475. Buchholz, W.
   “The Word "Byte" comes of Age...”
   BYTE, (February 1977), page 144.

   Micro Computer Abstracts (Formerly Micro Computer
   Index).
   -- A quarterly journal of microcomputing
   abstracts.

477. Caulkins, David.
   “A Computer Hobbyist Club Survey.”
   Byte (January 1977), pp. 116-118.

478. Editors.
   “Clubs and Newsletters Directory.”
   Byte (October 1979), page 210.

479. Friedrich, Otto.
   "Machine of the Year."

480. Helmers, Carl.
   "The Era of Off-the-Shelf Personal Computers Has
   Arrived."
   BYTE (January 1980), pp. 6-98.

481. Nelson, Ted.
   "On the Xanadu Project."
   BYTE (September 1990), pp. 298-299.

482. Press, Larry.
   "Is There Such a Thing as a Personal Computer."

483. Press, Larry.
   "The ACM Conference on the History of Personal
   Workstations."
   Abacus (Vol. 4, No. 1, Fall 1986), pp. 65-70.

484. Shapiro, Fred R.
   "The First Bug."
   BYTE (April 1994), page 308.
485. Tomayko, James E. (Editor).
   “Origin of the Term Bit.”
   “Origin of Word Byte and The First Bug.”
   Annals of the History of Computing,

**Historical Timelines**

486. Ahl, David H.
   "Ascent of the Personal Computer."
   Creative Computing (November 1984), pp. 80-82.

487. BYTE Staff.
   "10 Years of BYTE: Special anniversary Supplement."
   BYTE (September 1985), pp. 198-208.

488. Halfhill, Tom R.
   "Apple’s Technology Milestones."
   BYTE (December 1994), pp. 52-60.

489. Smarte, Gene and Andrew Reinhardt.
   "1975-1990: 15 Years of Bits, Bytes and Other Great Moments."
   BYTE (September 1990), pp. 369-400.

490. Williams, Gregg and Mark Welch.
   "A Microcomputer Timeline."
   BYTE (September 1985), pp. 197-208.
